REASONS FOR ALLOWANCE

The following is an examiner's statement of reasons for allowance: The prior art of record fails to disclose the claimed invention. Specifically, the closest prior art of record, Tao et al. (WO 99/60973), Morman et al. (5,883,028), and Jordan (US 2001/0031954 A1) do not disclose a second nonwoven material laminated on a first nonwoven material, the first nonwoven material being attached to the printed side of the film of the absorbent article backsheet, the total basis weight of the first and second nonwoven materials being between 20 and 50 gsm, and the total light transmittance of the first and second materials being between 40% and 83%. The closest prior art of record teaches no more than one layer of nonwoven material laminated to the film layer of the backsheet, and nothing in the prior art of record fairly suggests a second nonwoven material.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
